LEGACY REDEFINED

INTRODUCTION

The security situation in the world over is in a state of turmoil & flux. Crime rate is ever increasing, what with the advent of technology / robotics & electronics. Terrorism has added a new dimension to the security consideration. Corporate, industry, education establishments, malls or in short any business activity involving a large congregation of people are being targeted by inimical elements. No one is immune to this threat.

Security awareness amongst the public is woefully low. Added to this is the incapability of the already overstretched state law enforcing system to prevent crime. In such a scenario, the role of the private security agencies assumes very high significance. It is time that Corporate, Industry or business establishments understand this and select professionally managed security agencies who believe in welfare of their personne land adhere to the law of the land.

Quality Policy

Guardwell Prime Services Pvt. Ltd. is an ISO9001:2015 certified, total security solutions and risk management Indian enterprise which provides a broad range of specialized services customized to minimize loss by providing innovative and strategic security based business solutions

LEGACY REDEFINED

About Us

Every big leap starts with small step. The first small step has to be on firm footing. Guardwell Prime has taken the first FIRM step with the enormous experience of Mr Vishwanath V Katti & his team for the BIG LEAP forward. No doubt our company is new, but the team behind the company comes with an extensive experience in the field of Security & investigation. The fact that Mr Vishwanath V Katti is the President of CAPSI (Central Association of Pvt Security Industry), which is a forum of major security service providers across India, speaks it all. Our endeavour is to add new dimensions to the services delivered. Besides, professionalism, our aim is to ensure:-

1. Total transparency in all our activities- be it, statutory compliance, timely payments to security personnel, training, routine/surprise checks & delivery of service as per the agreed SLA's. We have developed a system that will provide an access mechanism, wherein our esteemed clients can verify our activity online.
2. We are setting up a futuristic training academy in lush green surrounding on the outskirts of Bangalore, complete with accommodation for 100 trainees, class rooms, training ground, obstacle course and running track. We have certified trainers to impart training as per PSARA.
3. On The Job training to improve the skills of security personnel to meet the site specific requirements of our clients.
4. Conduct regular Security & Risk Audits, to keep our customer well informed on the prevailing security scenario.
